"Alex's Peace Squad"

Lasi tekstu par puisi vārdā Alekss, kas kopā ar saviem draugiem atbrīvo skolu no vardarbības.

In a school called Harmony High, Alex saw that some students were in gangs and fights were happening. Alex wanted to make his school a safer place, so he and his friends made the "Peace Squad."

They made cool posters saying "Choose Peace, Not Fights" and put them all around the school. Alex and his friends invited everyone to join the Peace Squad and be part of making things better.

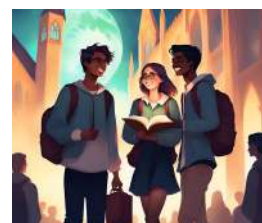

The Peace Squad started a "Friendship Friday" where students wore the same colour to show they were friends. It helped everyone feel connected. Alex said, "Let's talk about problems instead of fighting. We can be strong together."

Alex and the Peace Squad also organized fun events, like game nights and talent shows, to bring students together. They wanted to show that being friends was more awesome than being in gangs.

The fights started to happen less because of Alex's Peace Squad. They showed everyone that choosing peace could stop gang violence. Jake and his friends made Harmony High a safer school.
